Programme 2026/27

Have you ever looked at a tree and tried to imagine how far its roots reach?

We like to think of ourselves as a tree whose roots sink into the sky: into the wisdom that precedes us, into a deep trust in human potential, into the values we choose to hold and cultivate day after day.

This programme is born from that same sky and opens a new cycle for the Community of Living Ethics System, together with our Foundation, the Associazione Comunità di Etica Vivente, the Società Italiana di Agni Yoga and Bandiera della Pace. These are different realities moving forward as one, toward a shared direction: service to the Common Good and commitment to the expansion of consciousness.

It is from this commitment that every activity takes its form and meaning, as the concrete expression of a search that has accompanied us for more than forty-five years and continues to renew itself.

It is from the union of sky and earth that our vision is born: a future inhabited by Truth, Beauty and Goodness. We invite you to take part in this shared path, full of adventure and intensity.

ONLINE COURSE

ENGLISH

Living as a Soul

Advanced level – to be arranged with the teacher

Duration: **7 online sessions**

Teachers: **Marina Bernardi, Michael Lindfield**

Drawing upon the map, compass and guidebook provided by the Ageless Wisdom teachings and holistic psychology, we will explore and make sense of the journey of the Soul on Earth.

This course offers an introduction to the navigational skills and applied wisdom practices that help us successfully face the tests and accomplish the tasks that face the Soul each lifetime. We will examine the various stages on the Path and familiarize ourselves with the spiritual topography that needs to be traversed in response to the compelling call of the Soul.

Marina Bernardi and Michael Lindfield will facilitate and serve as guides for this seven-part online experience.

Who is this course for?

- Those who have heard about or studied this topic and would now like to experience it more deeply.
- Those who know something about the themes intellectually and are now drawn to explore them through the heart and their feelings.
- Those seeking a group with whom to share the fundamental stages of the soul's journey and who are ready for a deeper level of awakening and awareness.

Begins October 27, 2026

Wer bin Ich? Die 7 Strahlen

Sommerwoche in Präsenz

Offen für alle

Dauer: 7 Tage

Mit: Anette Hill und Markus Ruoff

Das Privileg unseres Lebens ist es, der zu werden, der wir wirklich sind.

Der Weg zu unserem wahren Wesen führt über immer tiefere und präzisere Ebenen der Selbsterkenntnis: Wir betrachten uns selbst aus verschiedenen Blickwinkeln, wodurch neue, feinere Aspekte unseres Seins ans Licht kommen. Je mehr sich unser Selbstverständnis von äußeren Merkmalen hin zu etwas Essentiellern verschiebt, desto tiefer wird unsere Verbindung zu unserem wahren Selbst.

Die „Psychologie der Sieben Strahlen“ geht davon aus, dass im Universum sieben miteinander verbundene Energieströme wirken, die alles erschaffen, was existiert – vom Sandkorn bis zum Sonnensystem. Auch im Menschen wirken diese sieben Energien auf verschiedenen Ebenen: Durch Wissen, Beobachtung und Erfahrung können wir den wahren Ursprung vieler unserer Verhaltensweisen erkennen und unsere essentielle Note von den psychischen Elementen befreien, die sich im Laufe des Lebens um sie herum angesammelt haben.

Uns selbst als Klang in der großen Symphonie des Lebens zu begreifen, verändert unser „Sein in der Welt“ grundlegend. Unseren Platz in dieser Vielschichtigkeit zu finden ist kein fernes, sondern ein erreichbares Ziel: Jeder kann von seinen eigenen Qualitäten und seinem Potenzial ausgehen und sich den Aufgaben zuwenden, die ihm wirklich entsprechen.

Erkennen, gemeinsam gehen. Eine Forschungsreise zu der Quelle unseres Selbst und zur Erkenntnis „Wer wir wirklich sind“.

Vom 29. August 2027 (16:30 Uhr) bis 4. September 2027 (13 Uhr)

Ort: Aula della Cultura, Comunità di Etica Vivente – Città della Pieve / Umbrien / Italien

ÉCOLE

FRANÇAIS

École d'Astrosophie

Niveau d'accès : ouvert à tous

Durée : 3 ans

Formateurs : Vincent Claessens, Ursula Raab

Introduction, structure et méthode de formation

L'École d'astrosophie a pour objectif de transmettre la sagesse des astres et d'offrir les outils nécessaires pour vivre en conscience le rythme du cosmos.

Étudier l'harmonie du système solaire et comprendre que le macrocosme se reflète dans notre propre microcosme nous permet d'accorder les messages du Ciel à notre vie et de collaborer avec Ses énergies, de façon à favoriser la croissance personnelle et l'évolution de l'humanité.

Bases théoriques

Astrologie humaniste, astrologie ésotérique d'Alice Bailey, enseignement de Enzo Savoini.

Méthodes pédagogiques

Au-delà de l'enseignement théorique, nous nous appuyons sur le travail en groupe à partir de l'interprétation des cartes du Ciel (horoscopes individuels et d'événements marquants), d'expériences de vie concrètes, de la méditation, de la psychosynthèse, du système des « constellations astrales », de la musique et de rituels, afin de parvenir à une compréhension énergétique impliquant tous les niveaux de conscience.

La formation de l'École s'échelonne sur 3 années, chacune s'articulant autour de 5 modules, selon le format suivant : 15 ateliers (3 ateliers par module) en ligne de 2h (mercredi de 18h30 à 20h30) + 1 semaine présentielle.

Débute le 2 décembre 2026

Wesak Celebration

Service experience and psychospiritual work

Open to all – Registration required

📍 Hall of Culture / Online

Duration: 4 days

The full moon of Taurus, or the **Wesak Festival**, can be considered the most important spiritual event of the year. It is celebrated in many countries around the world and is connected to Lord Buddha and the Christ. Wesak offers Light and Vision on the Path, both at individual and group levels. It is an occasion to strengthen inner certainty and stability that will then develop into creative work and a willingness to embrace renewal.

We intend to propose this double way to join us, in order to allow a wider participation:

- Meetings in streaming, with psychospiritual work, sharing and meditation sessions, open to all, in the afternoon of May 18th–21st.
- All participants can live this celebration inside our Community's farmhouses, experiencing service work in the morning, and joining together to deepen psychospiritual work as well as to take part in common meetings.

If you wish to participate please do subscribe in advance. Participation in this event is free of charge. If you wish, please support our activities through a [donation](#).

We remind you that on May 22nd, 2027, from 9:30 am to 1:00 pm, there will be the yearly Community's Shareholders Meeting.

Coordination: Fiorenza Bortolotti · Himalayan Centre of Agni Yoga, Crookety House:
Marina Bernardi · Darjeeling Goodwill Centre: Ursula Raab

4 December 2026: Crookety, the Himalayan Centre of Agni Yoga, celebrates its 21st anniversary.

The Living Ethics Foundation promotes the Agni Yoga project and activities both at Crookety, the house where Elena Roerich spent the last years of her life, and at the Goodwill Centre in Darjeeling, working in collaboration with the Indian trusts that support them.

The Mission of the project is to:

- Intensify and radiate from this centre of Fiery energy the magnetism of Agni Yoga, the message of Living Ethics, the life testimony and work of the Roerichs, and in particular the work of Helena's great Cosmic Consciousness, which is increasingly revealing itself to the world.
- Collaborate with other groups to foster understanding and the dissemination of the energy of Goodwill, as Love in action within Humanity and amongst the Kingdoms of Nature, through educational and cultural activities.

The Work Theme for 2026–2027 is:

Light of Darjeeling – Creativity in Action

The theme of the year for the activities in Crookety and Darjeeling furthers the theme of Creativity with new insights:

In cosmic creativeness the Spatial Fire approaches the earthly firmament when all corresponding energies are tensed. Creativeness can enter life only when all levers are impelled toward shifting.

HCAY – CROOKETY CULTURE

Theatre Course

A new educational project is currently being organised, intended to be implemented in several schools in Kalimpong through creative artistic activities, using the stories and legends of Agni Yoga translated into English and Nepali.

Crookety Education

The educational project in Crookety began in 2009 when a collaboration started between an Indian teacher and an Italian one. The Sunday Class was then established, welcoming children every Sunday morning from the village and those sponsored in schools in Kalimpong. The activities offered to the children and young people focused on art, cooperation and manual skills. Subsequently, a group of educators was trained from among the pupils attending the Sunday Class. This led to the formation of the Sensible Group, comprising seven wonderful young women who, for several years up until 2025, ran this initiative, supported by the Italian educational team. The New Year's celebration in 2026 marked the end of a 17-year cycle and the beginning of a new one. We currently continue to sponsor a number of children who wish to attend schools in Kalimpong and whose families require financial support. There are currently nine of them, aged between 5 and 14.

OUR ECOSYSTEM

The Community of Living Ethics System

We are an ecosystem of realities united by a shared Purpose, within the Community of Living Ethics. Each part of this organism operates in complementary fields and collaborates in a single direction, to foster the development of awareness and the integration of inner life, culture, education and service.

Our institutional purpose is to promote the expansion of individual and group consciousness, the development and spread of new thought, and the realization of coherent Models of Life.

In short, we aim to translate the principles and values of Living Ethics into concrete action, in an ongoing process of continuous refinement.

Fondazione Etica Vivente ETS is a Centre for Culture, Study and Research dedicated to the development of individual and group awareness, the integral growth of the person, Cooperation and the Common Good.

It was founded to spread the core values that unite our ecosystem. It aims to foster the growth of awareness so that everyone can recognize their own inner nature and potential, and live a life of authenticity, solidarity and harmony.

It carries out its work through different areas of activity such as Training, Study, Research, Culture, Events and group life, as well as through the Casa Editrice Nuova Era publishing house.

OUR ECOSYSTEM

The **Associazione Comunità di Etica Vivente** is a centre for Creative Meditation, inspired by the principles presented by R. Assagioli. It develops the practice and culture of meditation as a path of inner growth and service, offering experiences and periodic gatherings that connect the spiritual dimension to everyday life. In collaboration with the Foundation, it promotes and organizes meditation gatherings at significant moments of the year, including those of the Creative Meditation Group on the days of the Solstices and Equinoxes. The meditative activities that permeate the rhythms and life of the Community help create a unified group field that nourishes and sustains the whole System.

The **Società Italiana di Agni Yoga** is responsible for the national and international dissemination of Agni Yoga, a teaching of Ancient Wisdom for the third millennium. It promotes collaboration with national and international institutions and groups inspired by the same spiritual current, aiming to create a planetary network. It organizes courses, seminars, conferences and experiential gatherings, such as the «Spazio del Cuore», in collaboration with Fondazione Etica Vivente ETS. It cultivates the fire of the Teaching of Agni Yoga, which illuminates and unites all its activities.

The **Associazione Bandiera della Pace** spreads the Culture of Peace inspired by the work of the Roerich family and the Teaching of Agni Yoga. It promotes educational and artistic projects that teach Goodwill, cooperation and brotherhood as concrete paths toward building a new civilization. Through the Bandiera della Pace, the System connects to the international movement for the protection of culture and beauty as instruments of spiritual evolution.
